

Pedro Bessa Software Engineer

Porto, Portugal | hello@pedrobessa.dev | pedrobessa.dev | linkedin.com/in/pedrofnbessa | github.com/tamanegicode

Summary

Software Engineer with 9+ years of professional experience shipping cross-platform titles across PC, Mac, Android, iOS, WebGL, and VR. Contributed to 10 released titles, 8 of which I led from initial prototype through deployment. Specialised in Unity and C#, with hands-on experience in applied games and VR development, performance optimisation, and full project lifecycle ownership. I hold a Master's in Computer Engineering and a Bachelor's in Game Development, a combo that's given me both creative grounding and strong technical foundations. EU citizen available to relocate internationally.

Experience

Programmer, *Virtual Campus Lda.*

04/2021 – Present

Porto, Portugal

- Developed cross-platform games targeting PC, Mac, Android, iOS, WebGL, and Meta Quest (VR) in an Agile environment.
 - Built and maintained core gameplay systems and functionality of video games.
 - Took ownership of full project lifecycle on select titles, from initial prototype to deployment.
 - Collaborated with the art team to import, configure, and integrate 3D models, animations, and other visual assets into production-ready scenes.
- Optimised a Unity-based project for the University of Thessaly's Creative Technologies Learning Lab, achieving nearly 2x performance improvement.
- Mentored junior interns from both programming and design backgrounds, introducing best practices and bridging the gap between visual design and implementation.

Programmer, *GILT - Games, Interaction and Learning Technologies*

05/2017 – 04/2021

Porto, Portugal

- Developed cross-platform games targeting PC, Mac, Android, and iOS.
 - Implemented core gameplay systems and mechanics.
 - Translated abstract design concepts into implementable gameplay features and UI/UX interactions.
- Maintained and updated legacy projects to ensure compatibility with modern devices and platform compliance (Google Play Store, Apple App Store).

Education

Master's Degree in Computer Engineering – Graphics Systems And Multimedia, *Instituto Superior de Engenharia do Porto*

Bachelor's Degree in Digital Games Development Engineering, *Instituto Politécnico do Cávado e do Ave*

Technical Skills

Languages — C#, C, C++, Java, JavaScript, Objective-C

Game Engines & Frameworks — Unity, Unreal Engine, MonoGame, libGDX, raylib

XR & Graphics — Virtual Reality (VR), Augmented Reality (AR), Vuforia, HLSL

Tools & Development — Git, PlasticSCM, Visual Studio, Android Studio, Xcode

Languages

Portuguese — Native

English — Full professional proficiency – Cambridge Assessment English, CEFR Level C2, Grade A (Score 225/230)

Highlighted Projects

GaGEN, *A hidden object game that aims to teach about climate change through intergenerational play.*

Tools: Unity, C# | Platforms: [PC](#), [Android](#), [Mac](#), [iOS](#), [Web Browser](#)

Snappy Witch, *Side-scrolling game based on Flappy Bird.*

Tools: C++, raylib | Platforms: [PC](#), [Web Browser](#)

XR Skills, *Virtual Reality game designed for teachers and educators to improve stress management skills.*

Tools: Unity, C# | Platforms: [PC](#), [Meta Quest](#)

LOEL - League of Emotions Learners,

Game that focuses on developing emotional intelligence through varied minigames and gamified activities.

Tools: Unity, C# | Platforms: [Android](#), [iOS](#)
